

Special Conservation Commission Meeting
March 25, 2019

Meeting Opened: 6:03 pm

Members Present: Francis Chase, James Sanborn & Judie Walker.

Guest: Henry Boyd

This is a special meeting referred by the Planning Board for Conservation Commission to review the Bruce Brown property on Batchelder Road where he wants to put a storage facility with a variance of 10 feet in front of the wetlands.

Since this property is in the aquifer protection zone Francis Chase would like to know how to control what the people are storing in the renting units. He is worried they will be storing hazardous material.

Henry mentioned that in the renters agreements there shall be a clause containing the requirements that can be stored with the writing of no hazardous material will be allowed to be stored in these units.

Motion: Francis Chase, Chair

Second: James Sanborn

Unanimous

Meeting adjourned: 6:11pm

Next Meeting: May 4, 2019

Respectfully submitted: Judie Walker, Secretary
