NHDES:

- Bill Silva of 14 River Street came to the Conservation Commission about his Wetlands Permit Application getting expedited. Mr. Silva would like to put an addition onto his garage and replace his driveway. The driveway will still be no more than 20 feet.

Motion was made to expedite this permit:

Motion to expedite permit: Sue Foote

Second: Jim Sanborn

Unanimous

- PS Renewables of 27 Stard Road came to the Conservation Commission to discuss a solar farm they wish to put on 27 Stard Road. They wanted to respond to Sue Foote, Vice Chair comments dated 10-05-2018. They need to modify the site plan with no hay bales or silt sock. When they cut down trees there will be no stumps left they will be cut down to the ground. They will need a Wetlands Permit Application and an Alternation Terrain permit because the area is more than 1 acre. They will have a Stormwater Pollution Plan in place. They will need an easement from water because of the wells. The transformer will be northeast corner of the site, not near the wells and the wires will be underground going east.

It was suggested to put up a 6 foot fence around the solar panels with extra netting to keep the deer from jumping over the fence.

Other:

- Francis Chase the Chair of the Conservation Commission would like the emails and telephone numbers of all the members. He would also like Judie to send an email out to the members to remind them of the meeting. Judie always calls the members to remind them of the meeting.
- Sue Foote, Vice Chair asked if the commission wouldn't mind changing the meeting to the First Monday of the month. Everyone agree and the Conservation Commission will start meeting the first Monday in March 4, 2019.

Meeting adjourned: 6:45pm
Next Meeting: January 14, 2019
Respectfully submitted: Judie Walker, Secretary
