NEW RESIDENT FROM OUT OF STATE REGISTERING A VEHICLE

The Town Clerk's Office will need your **picture ID** (an out of state driver's license is fine) and **PROOF OF RESIDENCY** for your legal address.

If you rent, we need a SIGNED and current lease agreement. We can also accept a letter from the landlord. If you get a letter, it will need the landlord's phone number, signature, and the date.

If you own property, we will need the deed or purchase and sales of the home.

If you are still making payments on the vehicle, we need the registration of the vehicle and the name and address of the lienholder. The address we need is not always the address you make payments to, so you may need to call your lienholder to get the address. Getting this address is important because the State of NH needs to mail a request to your lienholder for the title. If the State of NH doesn't get the title from your lienholder, you will have difficulty registering your vehicle at renewal time.

If you are not making payments on the vehicle, we will need the registration and title of the vehicle.
