Proposal Due Date:
August 28, 2025

ADDENDUM #1 –

Questions:

Responses are noted in red

1. "Ability to Perform" – Comparable Projects Requirement

The RFP asks bidders to "list **ALL** inspection and cleaning contracts of comparable type performed or supervised within the last five (5) years."

Please list fifty (50) of the most recent inspection and cleaning contracts of a comparable type performed or supervised within the last five (5) years.

2. Scope of Work – Sediment Measurement Requirement

The RFP states that sediment depth is to be "measured."

Our equipment captures **high-resolution underwater video** and can visually confirm the presence of sediment, but **do not include a built-in sediment depth measurement sensor**.

Given that:

- The tanks are to remain in service,
- Cleaning is not expected,
- And the goal appears to be general assessment of sediment presence/accumulation,

Would this level of visual inspection still meet your expectations for sediment evaluation?

Yes, our goal is to obtain a general assessment of sediment presence and accumulation.

Or would you advise us not to submit based on this equipment limitation?

N/A

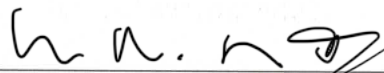

The Request for Proposals is modified as set forth in this Addendum. The original RFP Documents and any previously issued addenda remain in full force and effect, except as modified by this Addendum, which is hereby made part of the RFP. Respondent shall take this Addendum into consideration when preparing and submitting its Proposal.

This Addendum must be Signed & Returned with your Proposal.
