Aboul B. Khan  
William Manzi

Mr. Hess opened the meeting at 1:55PM.

**2015 WARRANT**

Mr. Khan said there was an article added to the warrant and asked that the chairman read it for the record. This is the article for Verizon to lease space for a cell tower.

Mr. Manzi explained the article. He said the article is coming in late as there were measurements and information needed. It involves lease of town land, a new tower and space for public safety with additional terms to allow Seabrook to share with co-placement to other carriers. This would bring in additional revenue to the Town.

The agreement is Verizon's but the Town will have it reviewed and changes made on behalf of the Town. If the article passes it does not bind us to the agreement.
